## EDUCATION

### Lovely Professional University

Bachelor of Technology in Computer Science, Specialization in AI ML

Punjab, India

Aug. 2023 – May 2027

## EXPERIENCE

### Fullstack Developer

Oct 2024 – Dec 2024

Hairiyapa Solutions

Jalandhar , India

- Designed, developed, and maintained a fully functional e-commerce website using **React.js** for the frontend and **Node.js** for the backend.
- Integrated **PostgreSQL** for database management, ensuring optimal performance and secure data storage.
- Implemented features for user account management, product listings, shopping cart functionality, and payment gateway integration.

## PROJECTS

### Yaatra AI | React, Vite, Firebase, Google Generative AI, TailwindCSS

[GitHub](#) | [Live Link](#)

- Developed a full-stack AI-powered travel planning application using React and Vite for the frontend with Firebase as the backend.
- Integrated Google's Generative AI to create personalized travel itineraries based on user preferences, including budget, duration, and travel companions.
- Implemented real-time data persistence using Firebase Firestore, allowing users to save and retrieve their travel plans.
- Developed an intuitive UI with responsive design using TailwindCSS and custom animations, featuring dynamic hotel recommendations and daily itinerary planning.

### Baatcheet | React, TypeScript, WebSocket, Node.js, Tailwind CSS

[GitHub](#) | [Live Link](#)

- Engineered a real-time chat application with WebSocket protocol enabling instant message delivery and room-based communication.
- Implemented a responsive UI using React and Tailwind CSS, featuring dark theme and mobile-first design.
- Developed a secure room management system with unique room IDs and isolated message broadcasting.
- Integrated toast notifications for user feedback and analytics tracking using Vercel Analytics.

### Roast My Resume | React, TypeScript, Express.js, OpenAI API, Tailwind CSS

[GitHub](#) | [Live Link](#)

- Made a full-stack web application that provides AI-powered humorous critiques of resumes using OpenAI's GPT model.
- Implemented drag-and-drop file upload functionality with real-time validation for PDF files and 5MB size limit.
- Built a secure backend API with Express.js for PDF processing and OpenAI integration with comprehensive error handling.
- Designed a responsive UI with Tailwind CSS and Framer Motion animations for enhanced user experience.

## TECHNICAL SKILLS

**Languages:** JavaScript (ES6+), TypeScript, Python, C / C++, JAVA, SQL (PostgreSQL), HTML/CSS

**Frameworks & Libraries:** React, Next.js, Node.js, Express.js, TailwindCSS, Vite, Prisma, Framer Motion

**Developer Tools:** Git, Firebase, Vercel, Docker, Google Cloud Platform, VS Code, WebSocket Protocol

**APIs & Services:** Google Generative AI, OpenAI API, Google Maps API, Firebase Firestore

**Other Skills:** Responsive UI Design, Real-time Data Persistence, Secure Backend Development, TypeScript Interfaces
